How to prepare for using Bio Preg Check Blood Test:

The herd owner or vet follows these simple tasks:

- Print and use Cattle Sample Submission Form
- 1 red top Vacuatiner® tubes and disposable Syringe per animal
Samples at least 2 cc of blood
- Avoids cross contamination by using new supplies for each animal.
- Labels each tube using water-insoluble ink or pencil with the tube sequence # and the animal #.

Testing Kits:

Testing kits can be purchased from the lab \$1.00 per kit.

A Test kit includes:

1 red top Vacuatiner® tube

1 disposable Syringe

Jody @ 979-224-3121

Thank You,
Bio Preg Check

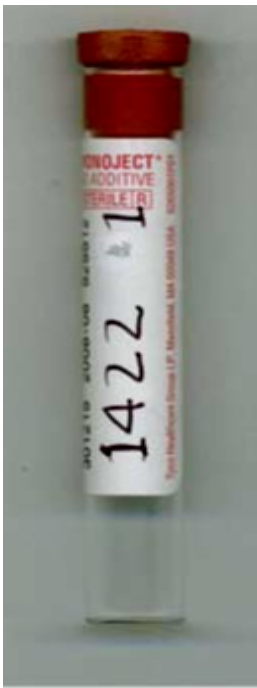

TUBE LABELING INSTRUCTIONS

1. Label tubes consecutively: Ex: 1 through 10

Always put this number above the animal ID

2. Put animal ID on proper tube: Ex: 1422

Always put this number below tube #

← Tube # 1 (If possible make this number a different color ink)
Very Important!!

← Animal ID 1422

3. Copy these two numbers onto the “Sample Submission Form”

Note: A list of tube numbers, 1 through 30, is already in a column on the form.
